Contents Volume 22, 1994

Special Issue: Vertical Breakwaters

Editors: H. Oumeraci, J. van der Meer and L. Franco

Introduction	1
Review and analysis of vertical breakwater failures — lessons learned	
H. Oumeraci	3
Vertical breakwaters: the Italian experience	
L. Franco	31
Design and construction of caisson breakwaters — the Japanese experience	
K. Tanimoto and S. Takahashi	57
Wave impact pressure on vertical walls under breaking waves of various types	
M. Hattori, A. Arami and T. Yui	79
Mechanics of deep water plunging-wave impacts on vertical structures	
E.-S. Chan	115
Dynamic response of upright breakwaters to impulsive breaking wave forces	
Y. Goda	135
Analysis of the dynamic response of caisson breakwaters	
H. Oumeraci and A. Kortenhaus	159

Research papers

Inertia dominated forces on oblique horizontal cylinders in waves near a plane boundary	
N. Chioukh and R. Narayanan	185
On the theory of the joint probability of heights and periods of sea waves	
C.D. Memos	201
Numerical results of the joint probability of heights and periods of sea waves	
C.D. Memos and K. Tzanis	217
Full-range equation of friction coefficient and phase difference in a wave-current boundary layer	
H. Tanaka and A. Thu	237
Geometry prediction for wave-generated bedforms	
G.R. Mogridge, M.H. Davies and D.H. Willis	255
A model of morphological behaviour of tidal basins	
A.R. van Dongeren and H.J. de Vriend	287
The modelling of wave action on and in coastal structures	
M.R.A. van Gent	311

Book review

Shallow Water Hydrodynamics, by W.Y. Tan — J.D. Wang	341
